

## **ELECTRIC METALS APPOINTS BRIAN SAVAGE AS CORPORATE SECRETARY**

**Toronto, Ontario, July 7, 2025:** Electric Metals (USA) Limited ("**EML**" or the "**Company**") (TSXV: **EML**) (OTCQB: **EMUSF**) which aims to become a leading producer of high-value, high-purity manganese chemical and metal products from North America's highest-grade manganese deposit in Emily, Minnesota serving the electric vehicle, defense, technology, and industrial sectors to strengthen American manufacturing and advance national security objectives, is pleased to announce that Brian Savage, the Company's Chief Executive Officer, has been appointed Corporate Secretary effective immediately.

Mr. Savage's appointment follows the resignation of Valerie Kimball, who previously served in the role. The Board of Directors thanks Ms. Kimball for her contributions and wishes her the best in her future endeavors.

Mr. Savage will continue to serve as Chief Executive Officer, assuming the responsibilities of Corporate Secretary, thereby ensuring continuity and efficiency in the Company's corporate governance and compliance activities.

### **About Electric Metals (USA) Limited**

Electric Metals (USA) Limited (TSXV: EML) (OTCQB: EMUSF) is a US-based mineral development company with manganese and silver projects geared to supporting the transition to clean energy. The Company's principal asset is the Emily Manganese Project in Minnesota, the highest-grade manganese deposit in North America, which has been the subject of considerable technical studies, including National Instrument 43-101 Technical Reports – Resource Estimates. The Company's mission in Minnesota is to become a domestic US producer of high-value, high-purity manganese metal and chemical products to supply the North American electric vehicle battery, technology and industrial markets. With manganese playing a critical and prominent role in lithium-ion battery formulations, and with no current domestic supply or active mines for manganese in North America, the development of the Emily Manganese Project represents a significant opportunity for America, the State of Minnesota and for the Company's shareholders.

## **Forward-Looking Information**

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") within the meaning of applicable securities laws. Forward-looking information is generally identifiable by use of the words "believes," "may," "plans," "will," "anticipates," "intends," "could," "estimates", "expects", "forecasts", "projects" and similar expressions, and the negative of such expressions.

Such statements in this news release include, without limitation: the ability of the Company to complete the Offering; the size, terms and timing of the Offering; participation in the Offering by insiders of the Company; the timing and receipt of TSXV and other approvals required in connection with the Offering; the intended use of proceeds of the Offering; the Company's mission to become a domestic US producer of high-value, high-purity manganese metal and chemical products to supply the North American electric vehicle battery, technology and industrial markets; that manganese will continue to play a critical and prominent role in lithium-ion battery formulations; that with no current domestic supply or active mines for manganese in North America, the development of the Emily Manganese Project represents a significant opportunity for America, Minnesota and for the Company's shareholders; and planned or potential developments in ongoing work by Electric Metals.

These statements address future events and conditions and so involve inherent risks, uncertainties and other factors that could cause actual events or results to differ materially from estimated or anticipated events or results implied or expressed in such forward-looking statements. Such risks include, but are not limited to, the failure to obtain all necessary stock exchange and regulatory approvals; investor interest in participating in the Offering; and risks related to the exploration and other plans of the Company. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and perception of trends, updated conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances at the date such statements are made. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information.

All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to reflect future results, events, or developments, except as required by law.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
